

FRONT FORK OIL

Front Fork Oil is a competition synthetic blend specially formulated to provide superior performance in motorcycle front forks and shock absorbers in both on-road and off-road usage. It contains state of art ANTI-FRICTION additive packagespecially, making easier sliding, avoiding drag in the fork. The top quality base stocks used ensure stable absorbing in an extended range of temperature. It provides Protection of seals. It provides excellent oil / elastomer compatibility, Anti wear, anti corrosion, anti foaming characteristics.

Recommendations :

- Provides excellence performance in motorcycle front forks and shock absorbers for both on-road and off-road usage.
- Can be used in motorcycle suspension systems.
- Year-round use

Main Benefits :

Wear protection:

Strong oil film protects the suspension system against wear, oxidation, corrosion and foaming.

Break Down resistance:

Shear stable viscosity improvers help resist oil film breakdown.

Suspension system cleanliness:

Keeps the suspension system clean and protects against foaming.

Year round use:

Suitable the whole year round and day-to-day riding.

Engine cleanliness:

Quality detergents combats scuffing and ring stic

Pack Sizes :

175 ml, 350 ml.

PRODUCT DATA SHEET

Property	Typical Value
TBM, mg KOH / g min.	10
Sulphated Ash, % Wt.	0.863
Kinematic Viscosity @40°C, cSt	34
Kinematic Viscosity @100°C, cSt	6
Viscosity Index min.	120
Flash Point, (COC)*C min.	235
Pour Point C Max	-39
