

EURO RED GEL

Euro Red Gel Grease is a top quality product to suit the needs today's fleet owners. It is formulated by using high grade base stocks, complex lithium complex thickener technology and state of art additive package. It's unique formulation ensures prolonged service life (75000 Kms +) in bearings of trucks. This ensures peace of mind for the Fleet owners and very less cost on greasing of bearings.

Specifications :

Meets : Lithium Soap Base Grease. Meets API NLGI 3, AARM - 942, IS 12203 : 99 (Rearmed 2009) specification.

Pack Sizes :

1, 2, 3, 5, 7,
50, 180 Kg

Recommendations :

Recommended for all grease-lubricated parts of automobiles including commercial vehicles.

Main Benefits :

- Good thermal and structural stability.
- Possess high drop point and high oxidation resistance.
- Corrosion inhibitor additives ensure protection of metal surfaces extending bearing life.
- Oxidation inhibitors extend the life of the grease in high temperature applications minimizing the need for re-greasing.
- Excellent Water resistance ensures good levels of protection in wet applications.

PRODUCT DATA SHEET

Property	Typical Value
Colour	Red
Consistency of Grease @250°C, cSt	2
Worked 60 Strokes min.	220
Max	250
Dropping Point, °C min.	265 °C
Free Alkalinity, as LIOH, % Wt, max.	0.15
Heat Stability, @1000C, 30 Hrs max.	5
